

# Assembly Instructions

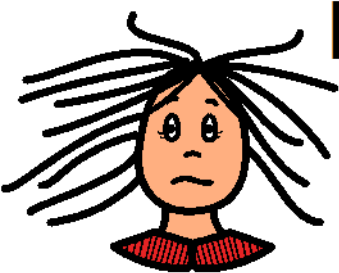

1. Print pages 1-6.
2. Trim along lines as indicated.
3. Laminate all sections; book pages and moveable symbols.
4. Cut out moveable symbols.
5. Velcro moveable symbols to corresponding location on each page. Be sure to put soft Velcro on the page, and scratchy Velcro on the moveable symbol.
6. Align pages so the script statements stack on top of one another, revealing each line in the script, when the pages are bound.
7. Spiral bind on top edge. Alternatively, use zip ties.

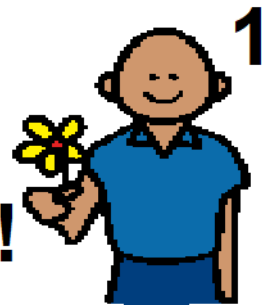

## To Mask or Hide cells and limit visual distractions:

1. Print page of Masking Cells.
2. Laminate and cut out masking cells.
3. Adhere scratchy Velcro to back.
4. Laminate a blank piece of paper. Bind along side or bottom edge. Adhere soft Velcro to inside of blank page to store masking pieces, or adhere an envelope for storage.
5. Fold blank page between pages of script to limit visual distraction of pages below, as needed.
6. Use moveable masking pieces to limit the number of available selections on each page, as needed.

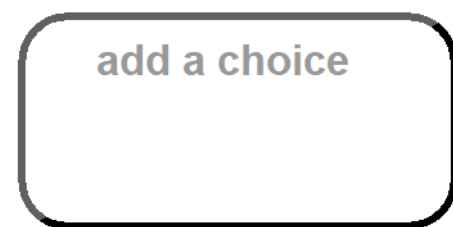

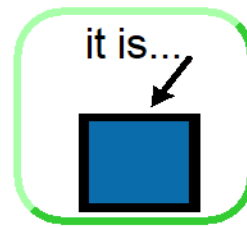

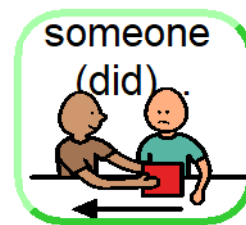

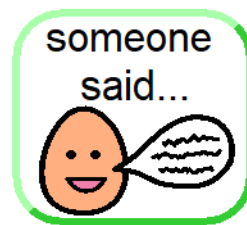

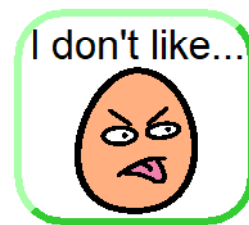

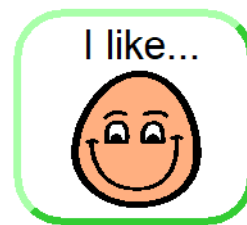

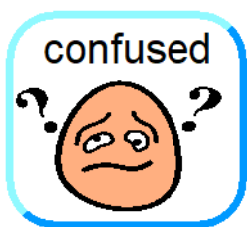

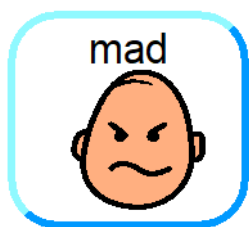

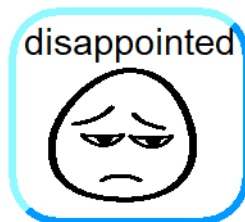

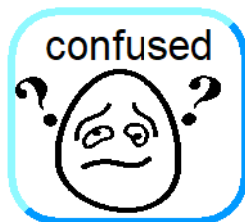

# Even when I feel out-of-sorts, I can be kind to others!

Cut along line above.  
Cut out cells below. These are the moveable symbols.

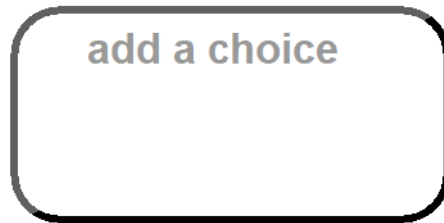

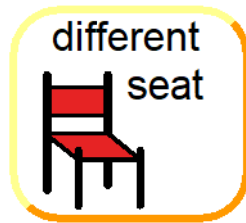

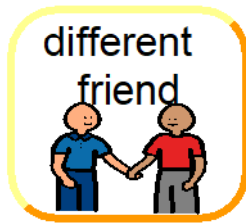

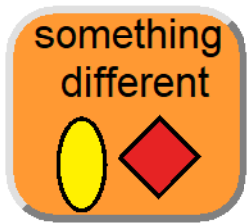

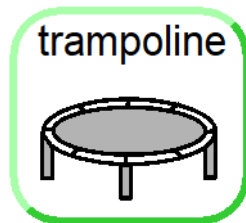

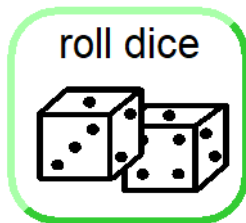

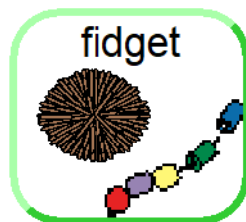

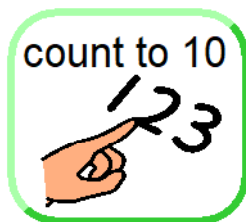

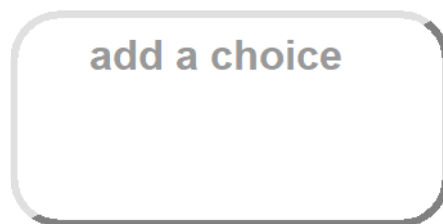

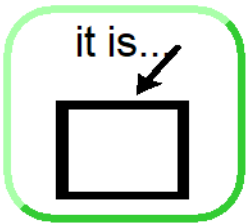

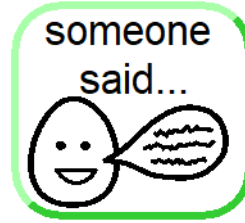

# When I feel

Cut along line above.  
Cut out cells below. These are the moveable symbols.

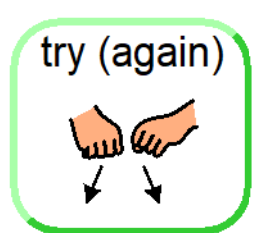

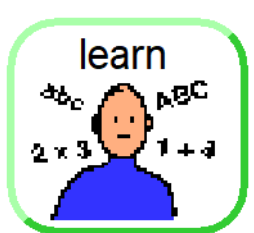

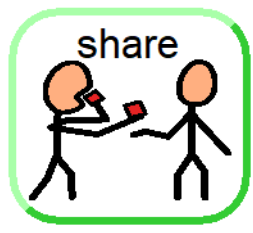

# because...

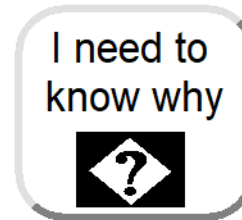

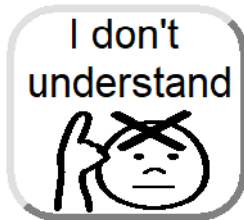

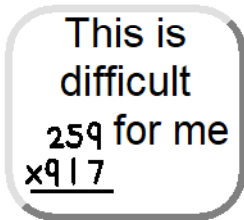

Cut along line above.  
Cut out cells below. These are the moveable symbols.

My teachers and peers want school to be a positive place for learning.

Kind and helpful (problem-solving) words are used here.

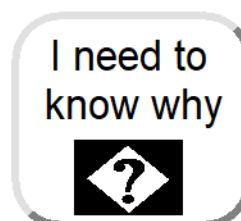

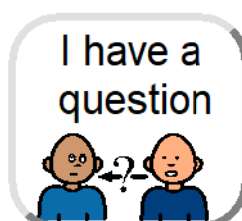

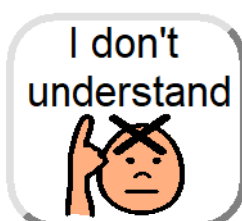

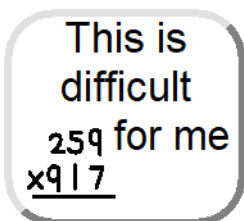

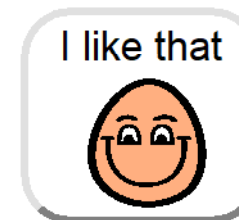

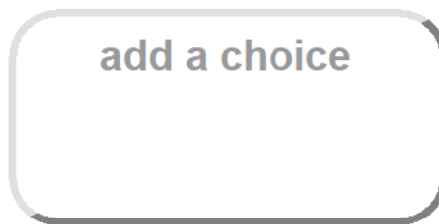

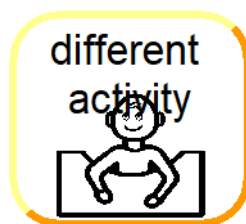

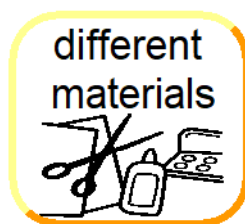

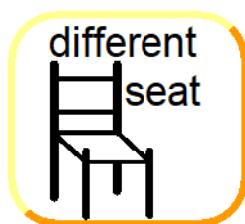

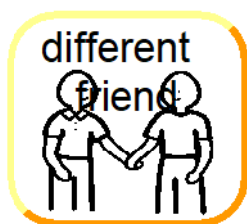

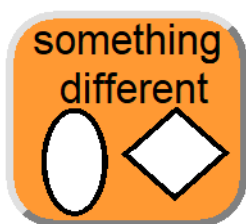

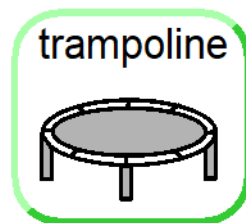

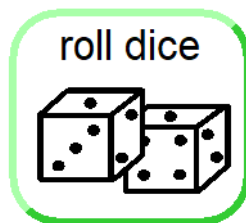

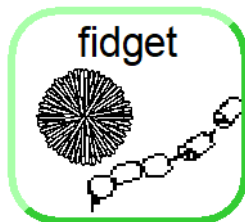

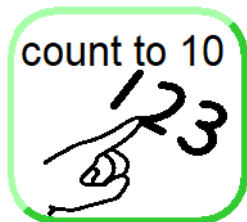

I can say

Cut along line above.

Cut out cells below. These are the moveable symbols.

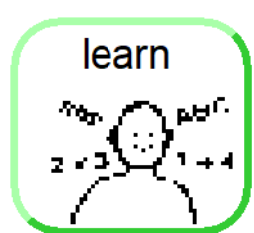

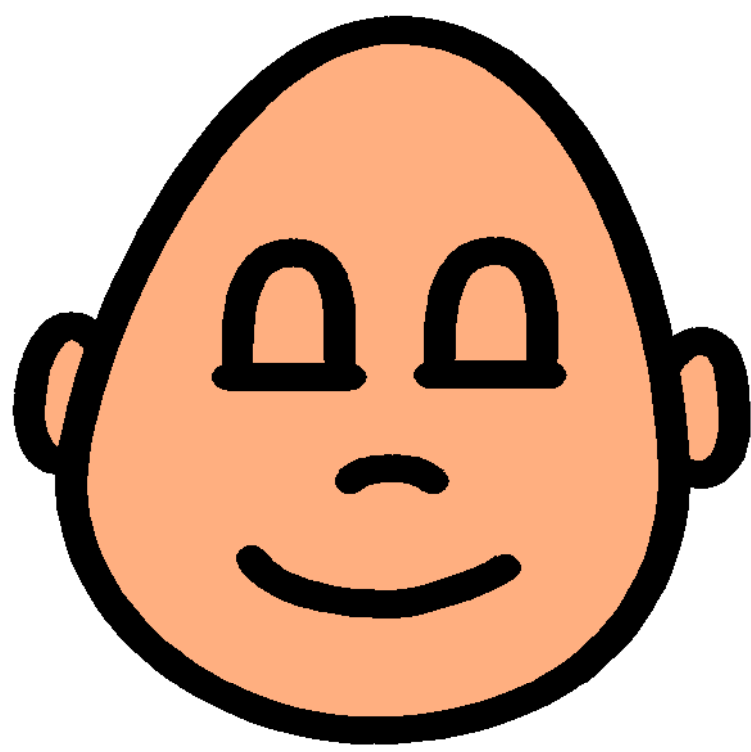

I can also ask for

;

Cut along line. Discard this portion.

Then I'm ready to

# Masking Cells:
