

Super Symbols:

Purpose:

A receptive language tool to prompt desired behaviors (or praise them) with a non-intrusive visual cue

Tools:

scissors

hole punch

laminator

Materials:

Super Symbols Template: <https://rebrand.ly/SuperSymbols>

1 or 2 zip ties or 1/2" binder rings

5 lamination pouches

packaging tape

Assembly Instructions:

1. Laminate all 5 pages of the Super Symbol Template
2. Cut out each symbol, taking care to cut around the tab, and (if desired) the gray margin on the top of the symbol box.
Note: There are 2 blanks. These provide opportunity for in-the-moment additions, or the flexibility to customize for students with specific and unique needs. Use a dry erase marker or tape an image in the box.
3. Punch 1 or 2 evenly spaced holes in the gray margin area of 1 symbol. Use as a template to align the hole(s) evenly on the remaining symbols.
4. Reinforce tabs (if desired) with tape. Packaging tape is recommended. Use a single piece of tape to wrap the tab front to back. Trim the inside edges of the tab to remove excess tape.
5. Stack symbols and bind with 1-2 zip ties or binder rings.

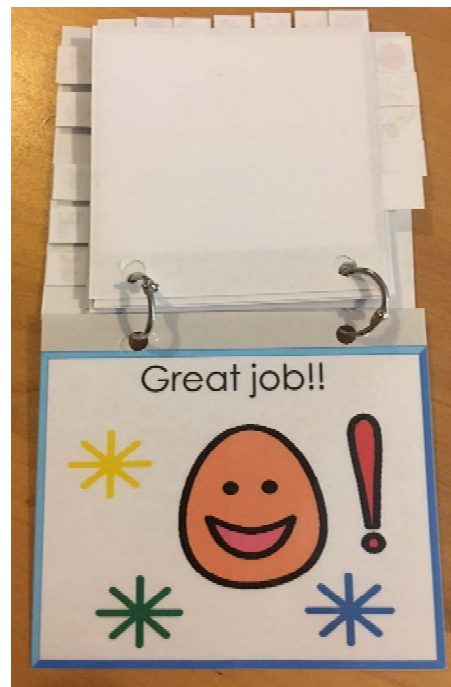

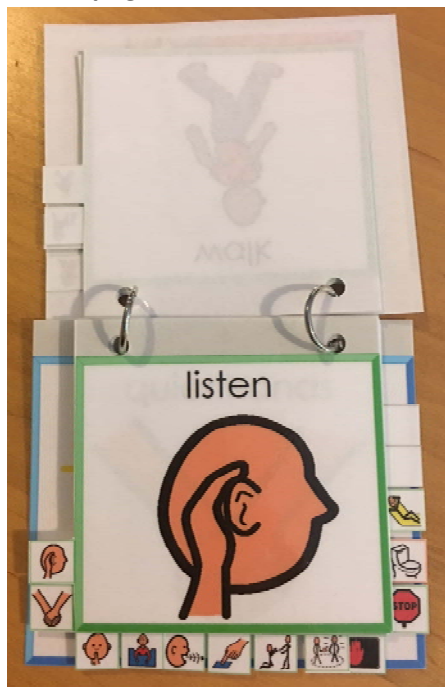

1- ring (zip tie)

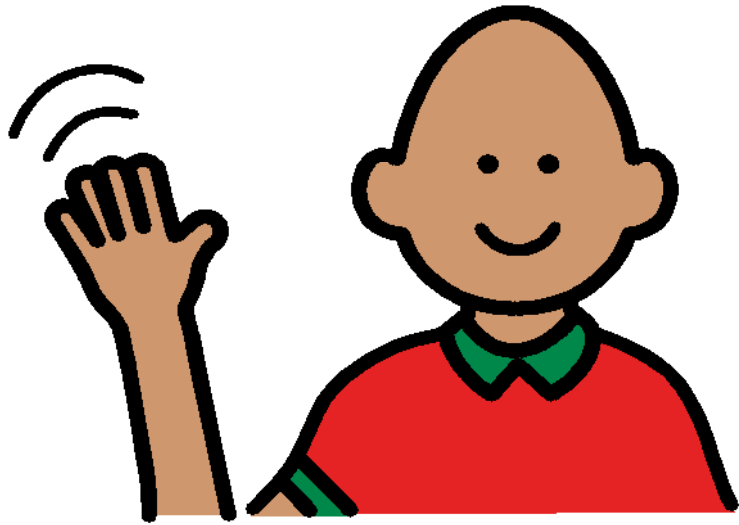

2- rings (1/2" binder rings)
